North View Fire Department Open House October 6, 2014 at 5:00-8:00 p.m. at 315 East 2550 North in North Ogden. Open to the public, everyone is welcome.

WEEDS, WEEDS, WEEDS

This time of year it seems that weeds are abundant everywhere. The city receives calls daily from residents regarding overgrown weeds, and your neighbors would like you to cut them down. Weeds are noxious, invasive, and can be a fire hazard. As a property owner you are responsible to keep your property free of nuisance weeds and overgrowth. Code enforcement will send a letter to you if a weed complaint is filed on your property. Fines can be imposed for weeds and overgrowth. Do your part and keep your property clean and kept, your neighbors will appreciate it.

HARRISVILLE CITY BOYS BASKETBALL SIGNUPS

WHO: All boys currently in grades 1-9 are invited to play. Must be a Harrisville City or Marriot-Slaterville City resident to sign up with Harrisville.

WHERE: Online at www.cityofharrisville.com or at the City Office building Monday- Thursday 8:00 am - 4:00 p.m.

WHEN: On-line registration can be done any time during the month of October. Registration may also be done at the city office during regular business hours by paper. Saturday registrations will be held on the first Saturday in October from 8:00 a.m. to Noon at the City Office building where a computer will be available for online registration.

COST: \$35.00 plus \$15.00 for jersey (must be reversible jersey with numbers on front and back).

GAMES: Games will be played on Saturdays. Season runs January through March. (1st & 2nd grade boys may play on one week night and not on Saturdays).

COACHES: Volunteer coaches needed! If we don't have coaches, we don't have teams. All coaches subject to criminal background check. If interested in coaching, please download both background check forms from www.cityofharrisville.com or obtain them from the City Office.

QUESTIONS: Call Bryan Fife at 801-782- 6227 M-Th 8am-4pm or email at bfife@cityofharrisville.com

CONSERVATION TIPS FUN WATER FACTS

By the time a person feels thirsty, his or her body has lost over 1 percent of its total water amount.

The weight a person loses directly after intense physical activity is weight from water, not fat.

INDOOR WATER CONSERVATION TIP

Teach children to turn faucets off tightly after use. Play fun games while learning how to save water!

OUTDOOR WATER CONSERVATION TIPS

September temperatures are cooling and things are beginning to revive from the summer heat. You can water less frequently to keep plants healthy and promote deep rooting as plants store energy for next year's growth.

Change your lawn mower to a 3-inch clipping height and try not to cut off more than one-third of the grass height when you mow. This will help create deeper healthy root systems that will be more tolerant of heat and will tolerate longer times between watering.

If you plan on planting, or even transplanting/dividing September is a great time to plant trees, shrubs and perennials.

WATER CONSERVATION ACTIVITIES

Saturday, Sept. 13th 10:00-11:30 am, Free Class "Perennials You Want for Your Yard"

Wednesday, Sept. 17th 6:00-7:30 pm, Free Class "Planting, Transplanting, and Dividing Plants"

Saturday, September 20th 9:00 am -1:00 pm Fall Garden Festival at the Learning Garden. Free to the public with free activities, landscape classes, tours, experts in the landscape and irrigation industry to answer questions, vendors, and local nurseries selling great plants for your yard. Enjoy free cinnamon rolls, milk, and apple juice! Flier attached.

For a full class schedule and other water conservation information go to www.weberbasin.com/conservation. Classes are located at Weber Basin Water Conservancy District's Learning Garden located at 2837 E. Highway 193 in Layton Please note: All irrigation deliveries will be shut off October 1st instead of October 15th.

HEAT STROKE IN DOGS

This summer has been very hot, so please be aware when you leave your animals in the car. When a dog is exposed to high temperatures, heat stroke or heat exhaustion can result. NEVER leave your dog alone in the car on a warm day. Even if the weather outside is not extremely hot, the inside of the car acts like an oven, temperatures can rise to dangerously high levels in a matter of minutes. The following signs may indicate heat stroke in a dog: Vigorous panting - Dark red gums - Thick saliva - Tacky or dry mucus membranes (specifically the gums) - Lying down and unwilling to get up - Dizziness or disorientation. If you have the slightest suspicion that your dog is suffering from heat stroke take immediate action. Begin with cooling your dog by placing cool, wet rags or washcloths on the body especially the foot pads and around the head. DO NOT use ice or very cold water! Offer your dog cool water, but do not force water into the mouth. Please be aware when walking your dog, the asphalt/sidewalk areas can burn their paw pads just like it can burn yours if you were walking without shoes. Prevention is the key to keeping your dog safe during these "HOT Dog day afternoon".
